I am a Bachelor of Informatics Engineering with a strong command of programming languages and over 4 years of experience in designing and developing Web Applications and Software. Proficient in designing and managing databases, as well as conducting comprehensive data analysis, I bring valuable expertise to the table. My skills encompass PHP, MySQL, HTTP, CSS, C++, C# and various other programming languages. Known for my meticulous and detail-oriented work approach, I consistently strive for excellence in delivering high-quality results. Furthermore, I possess excellent communication and interpersonal skills, enabling effective collaboration with team members and clients alike. Currently, I am serving as a Senior Laravel Programmer, where I leverage my skills and experience to create innovative and robust solutions.
